CONCLUSION

EVALUATION:

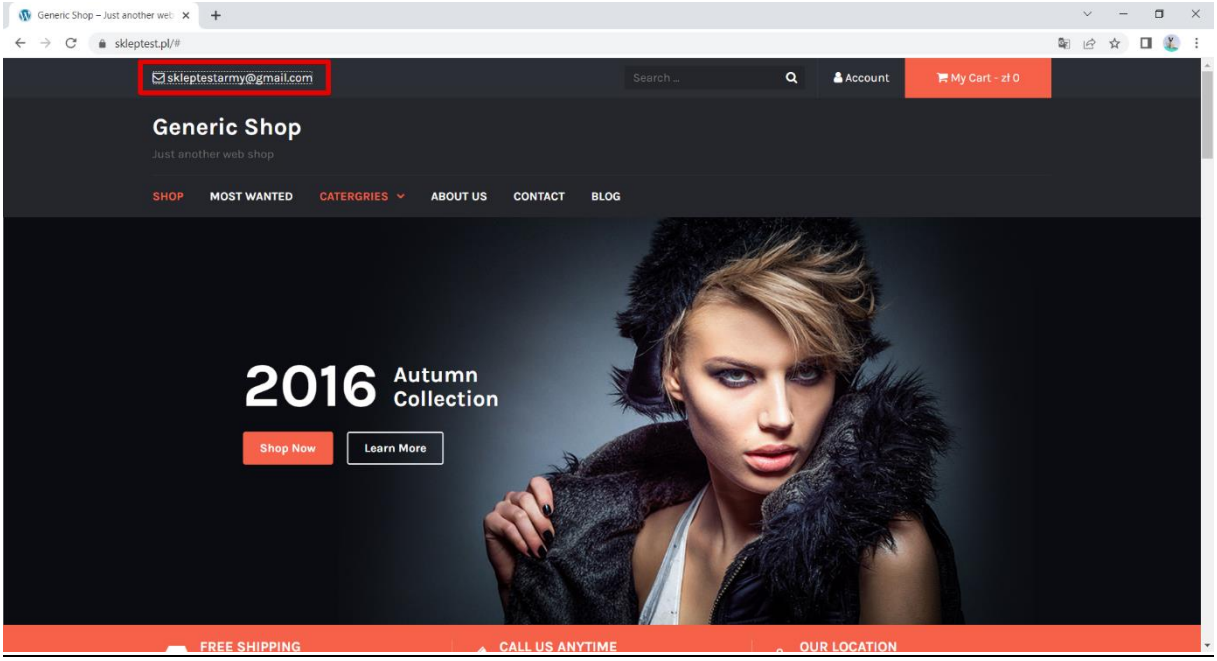
The homepage is simple to navigate and user-friendly. There are defects that affect the overall assessment of the application. Some defects hinder the purchase process – the lack of a product image leaves us unaware of what the product looks like.

TESTED APPLICATION ELEMENTS:

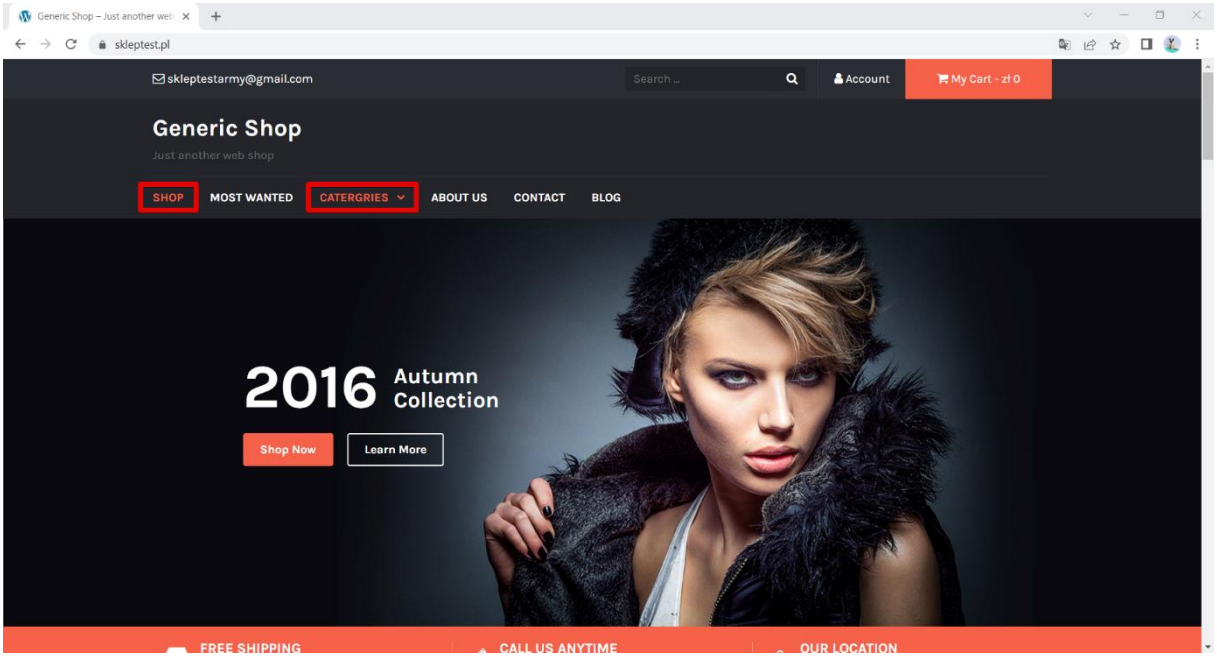
- homepage - visual inspection and checking if the links leading to subpages work properly

BUGS:

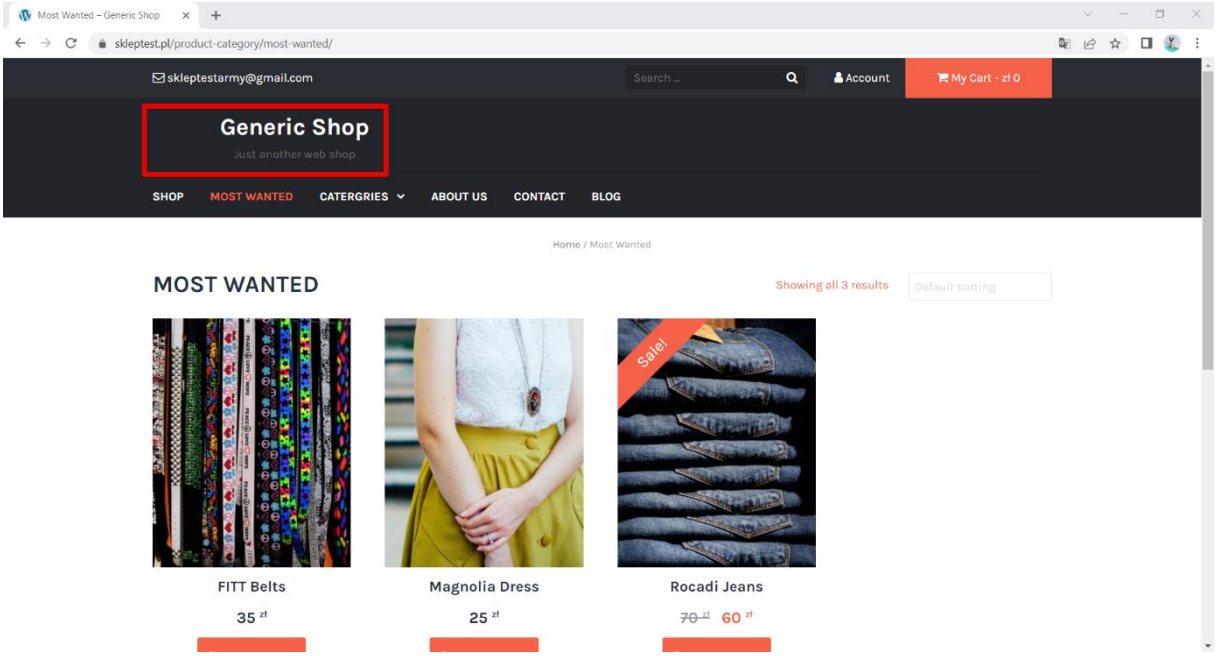
ST-1 - The email link placed at the top of the page is not working



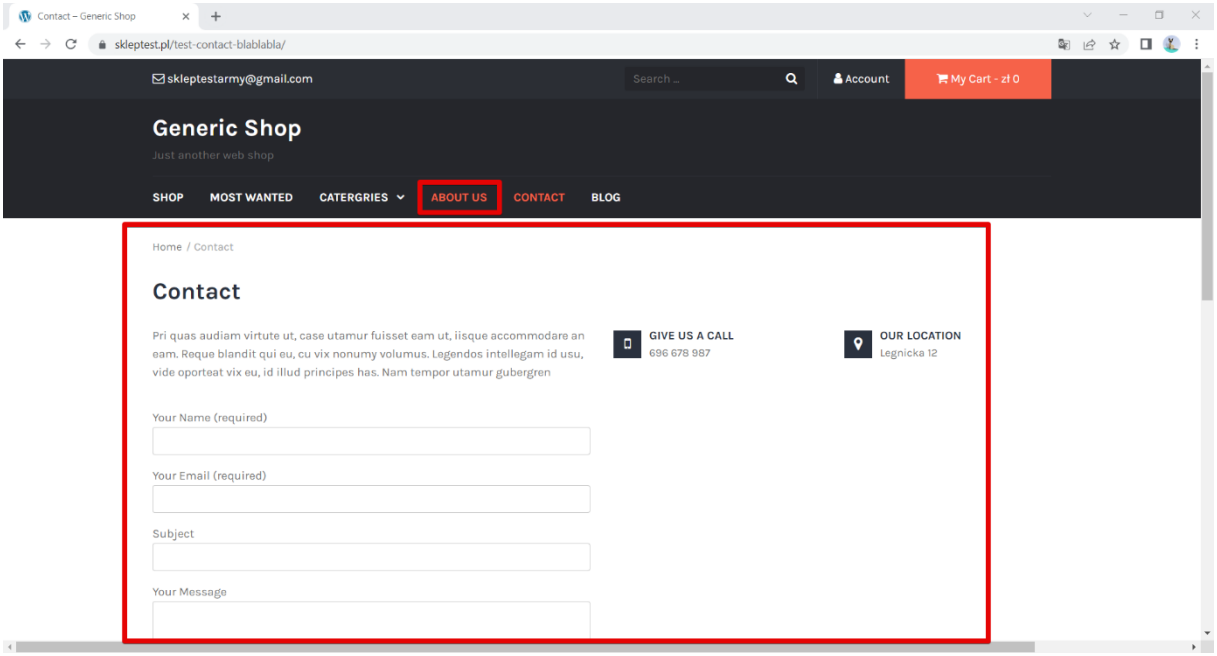
ST-2 - In the navigation menu, two tabs are highlighted



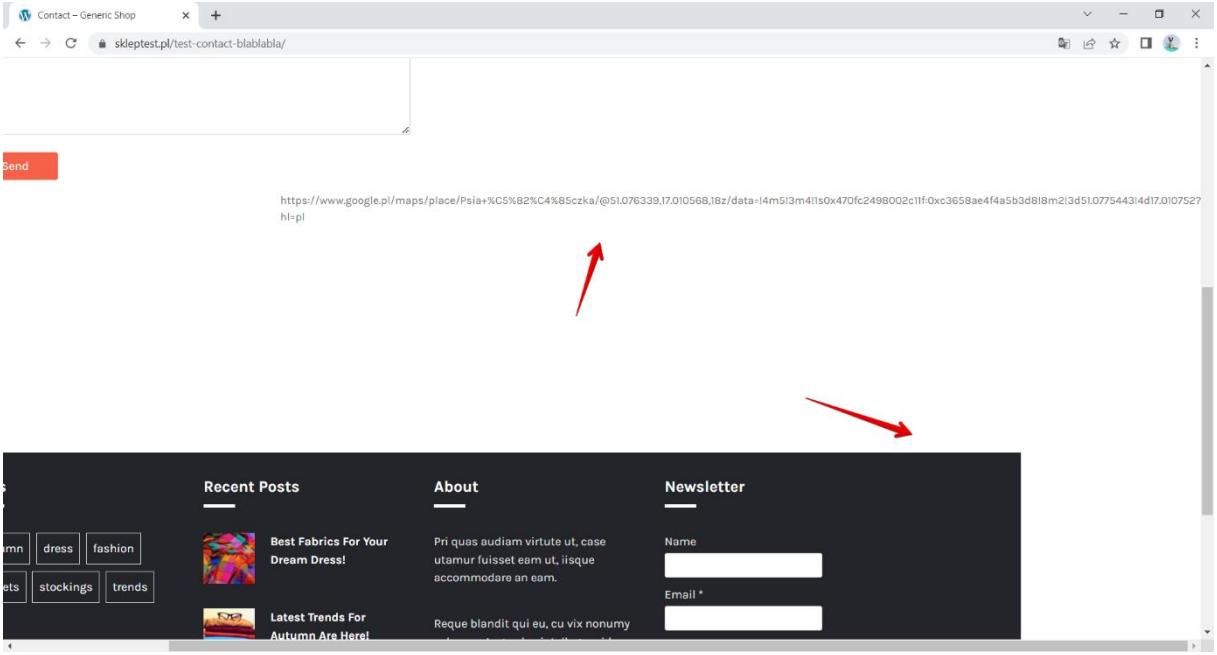
ST-3 - The "Most wanted" header text on the page moves when you click on a tab in the navigation menu



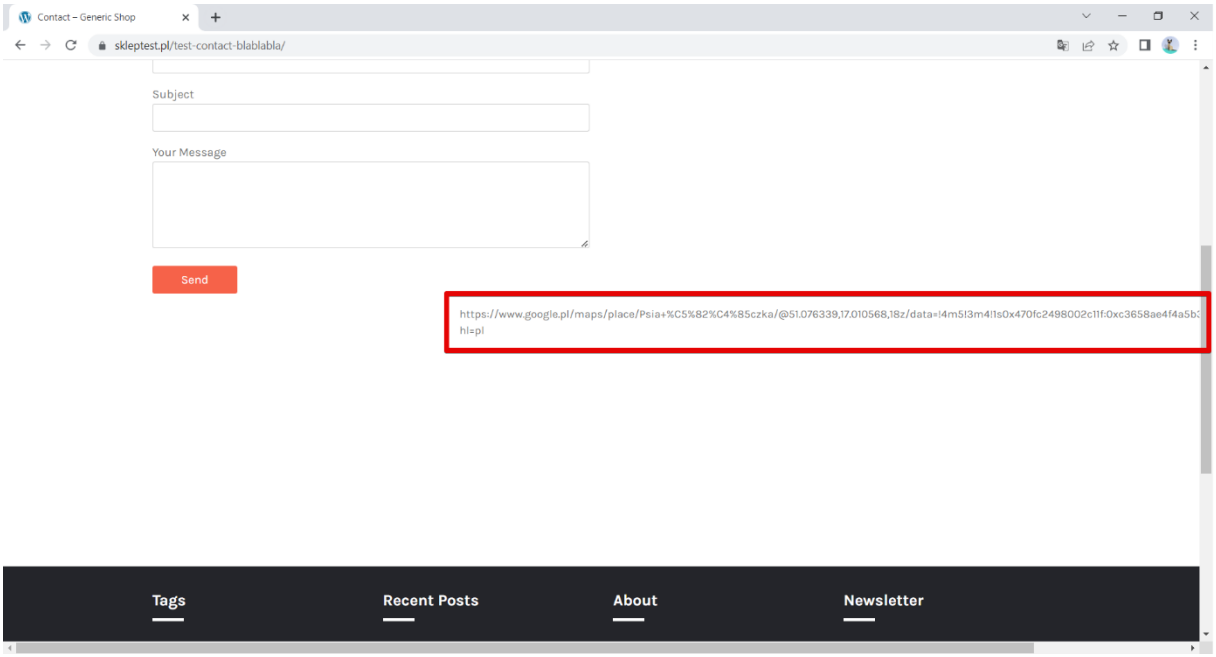
ST-4 - There is no correct link to the "About us" tab



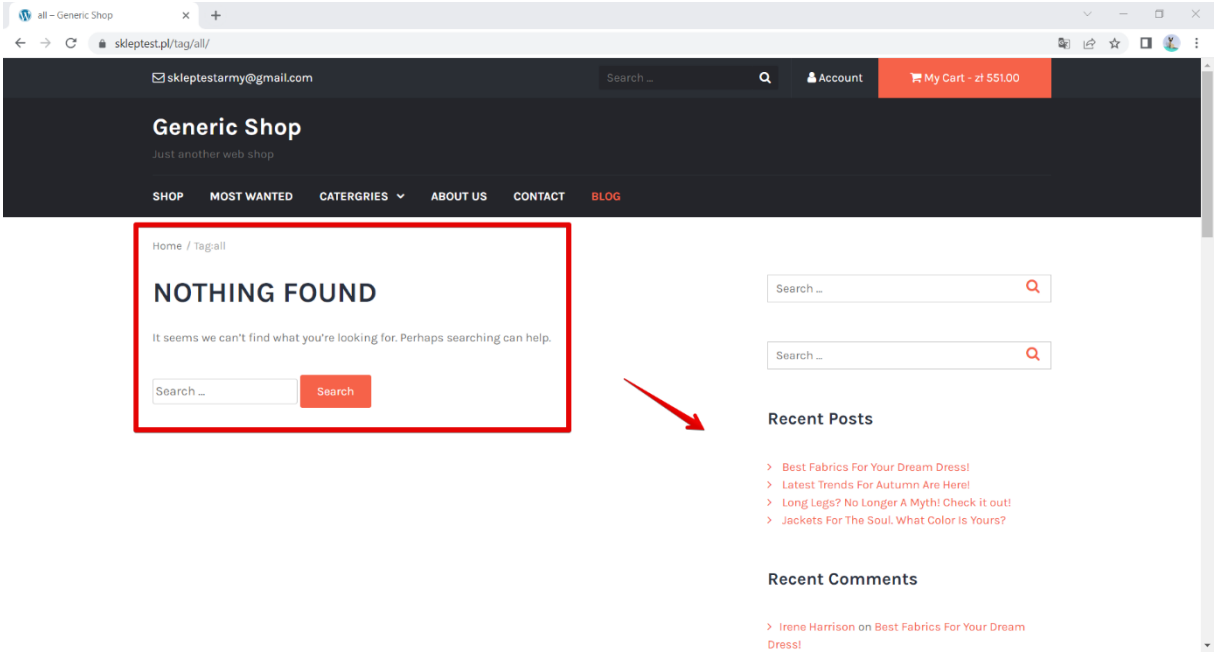
ST-5 - After clicking on the "Contact" tab, the page stretches unattractively



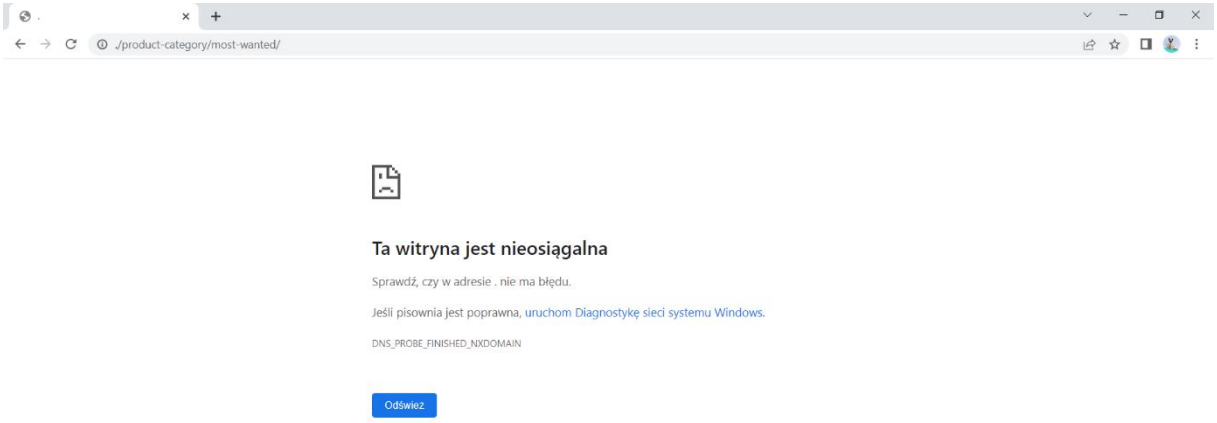
ST-6 - The map with the marked location is not displaying in the "Contact" tab



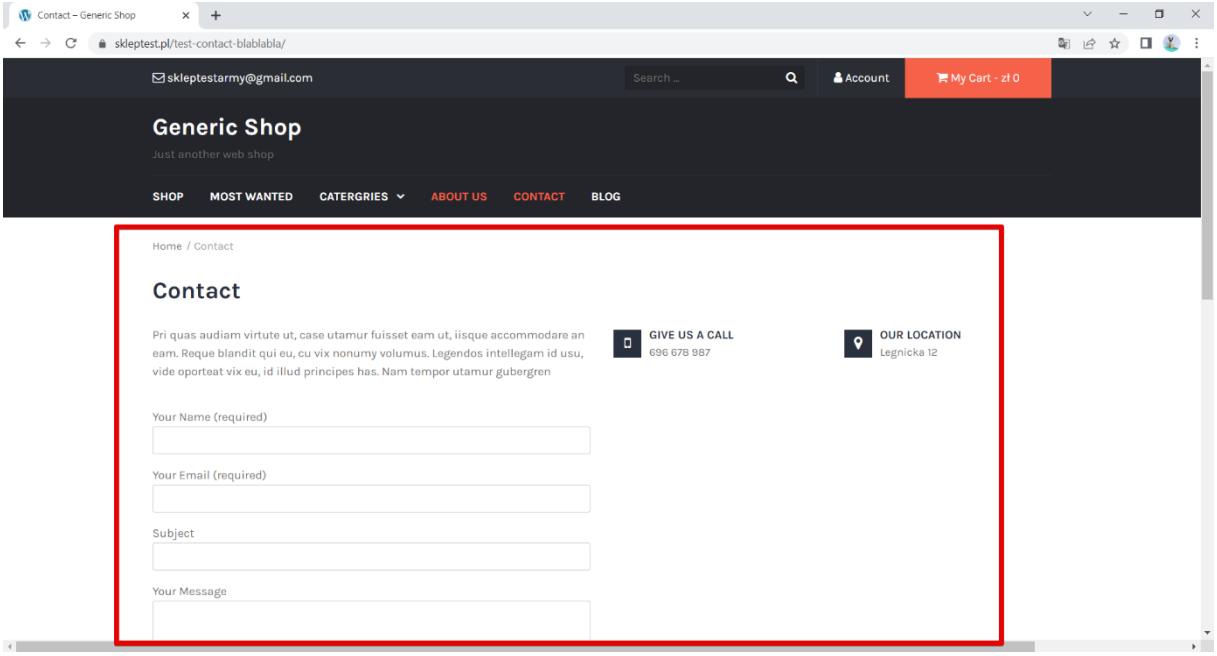
ST-7 - After clicking on the "Blog" tab, it redirects us to the wrong page



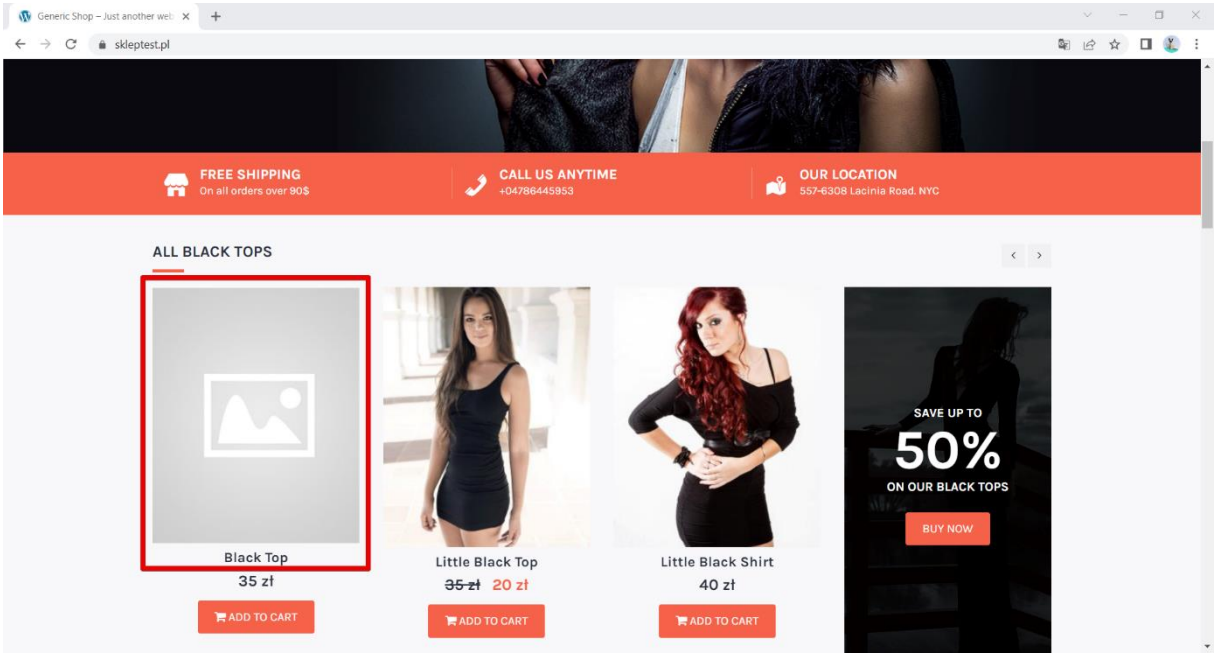
ST-8 - The "Shop Now" page is displaying as inaccessible



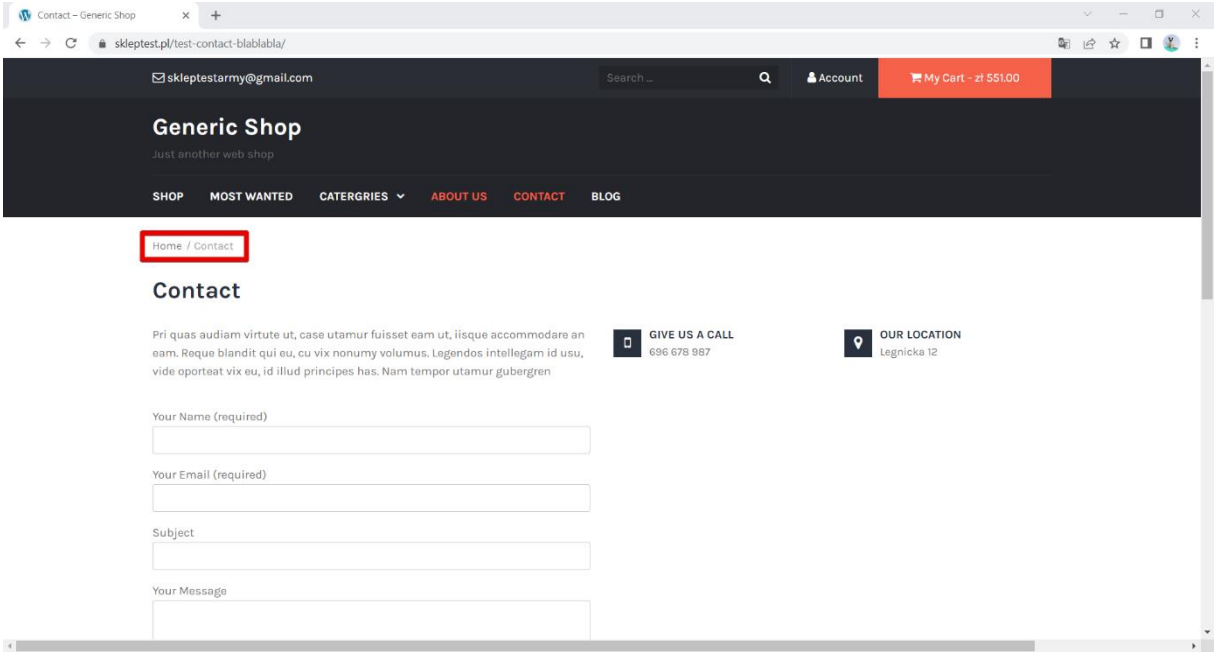
ST-9 - The "Learn More" tab leads to the "Contact" page



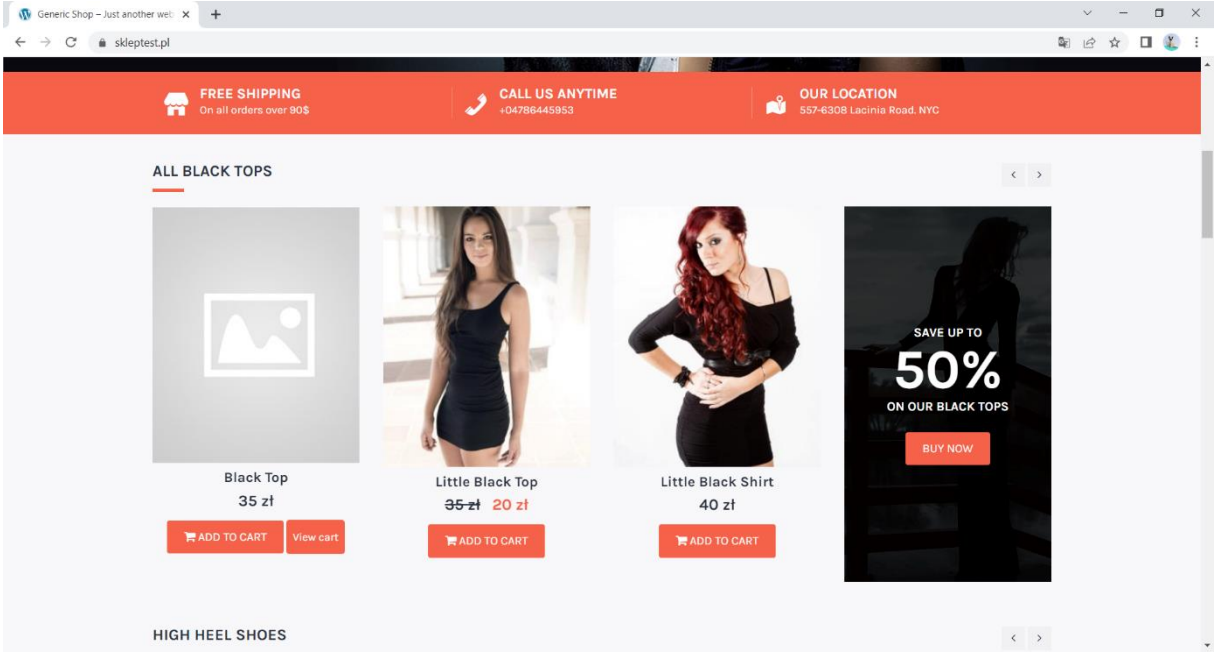
ST-10 - The product image for "Black Top" is not being displayed, and the text below it is positioned higher compared to other products



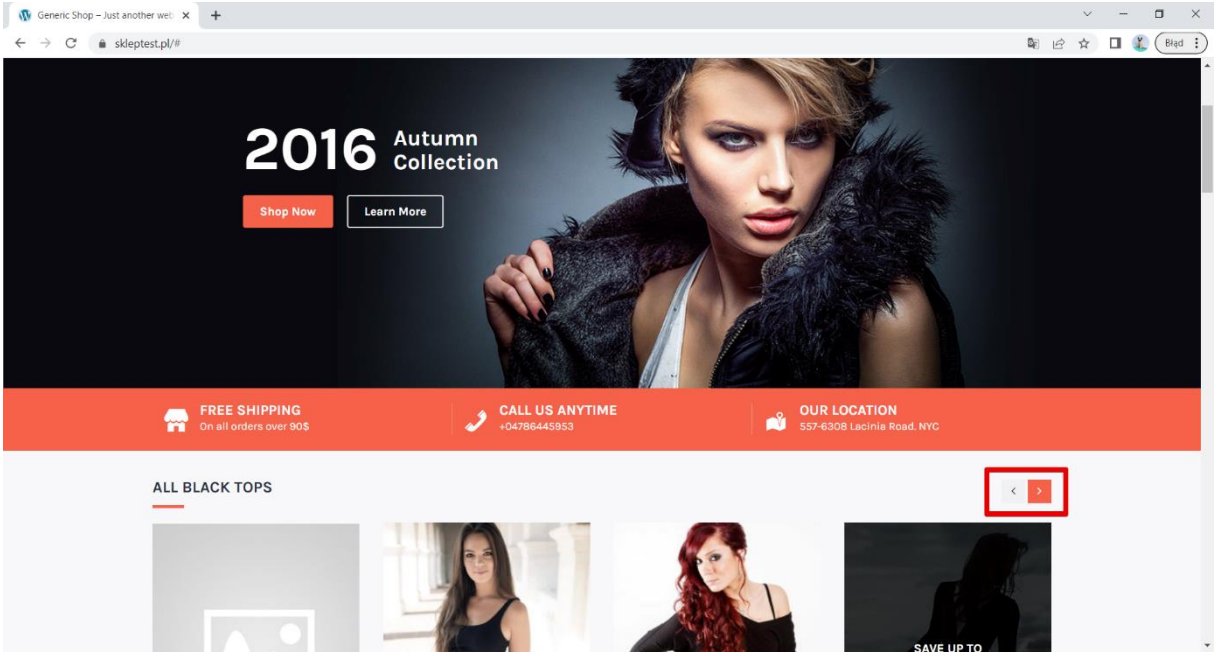
ST-11 - In the "Contact" tab, the text displaying the navigation tabs is positioned on the left side



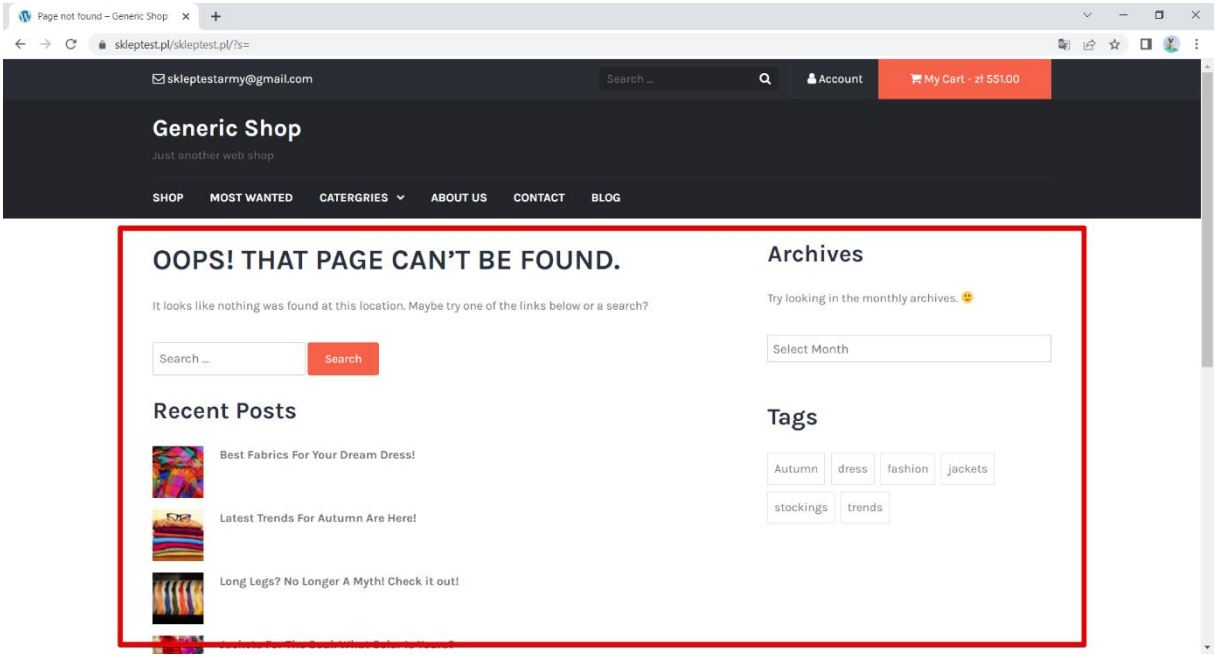
ST-12 - The "View cart" button is not working after adding a product to the cart



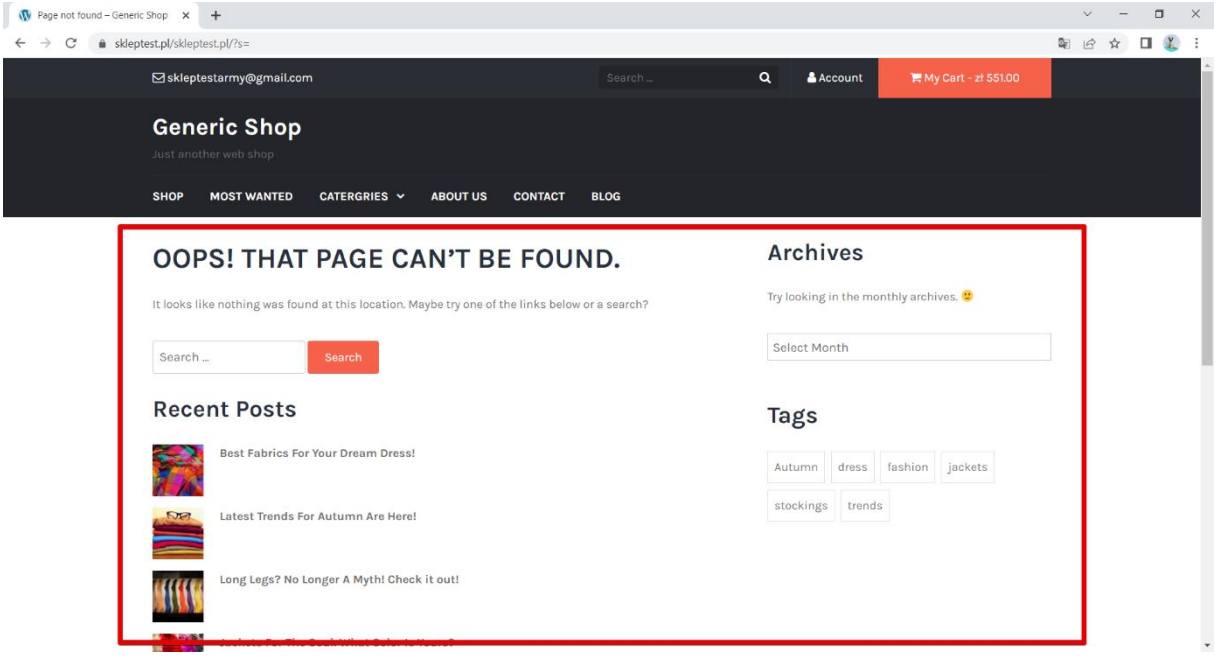
ST-13 - The arrows intended for scrolling through the products on the page are taking us to the top of the page instead



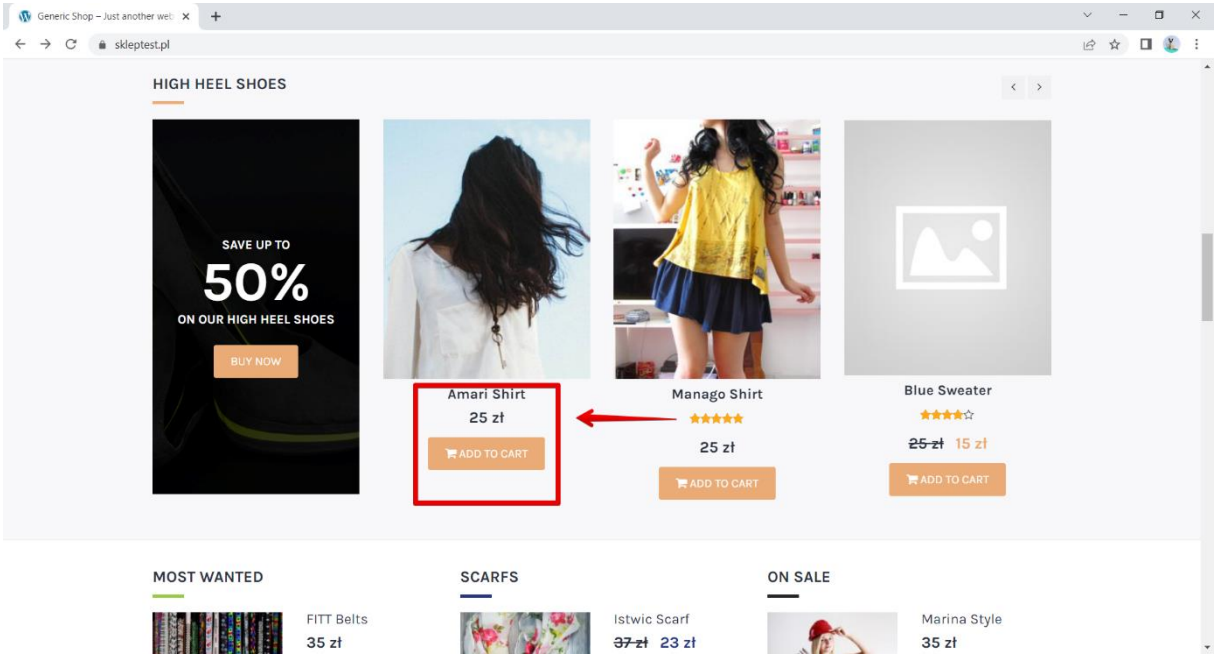
ST-14 - The "Buy now" button in the "All black tops" section redirects us to a page with a message about the lack of content



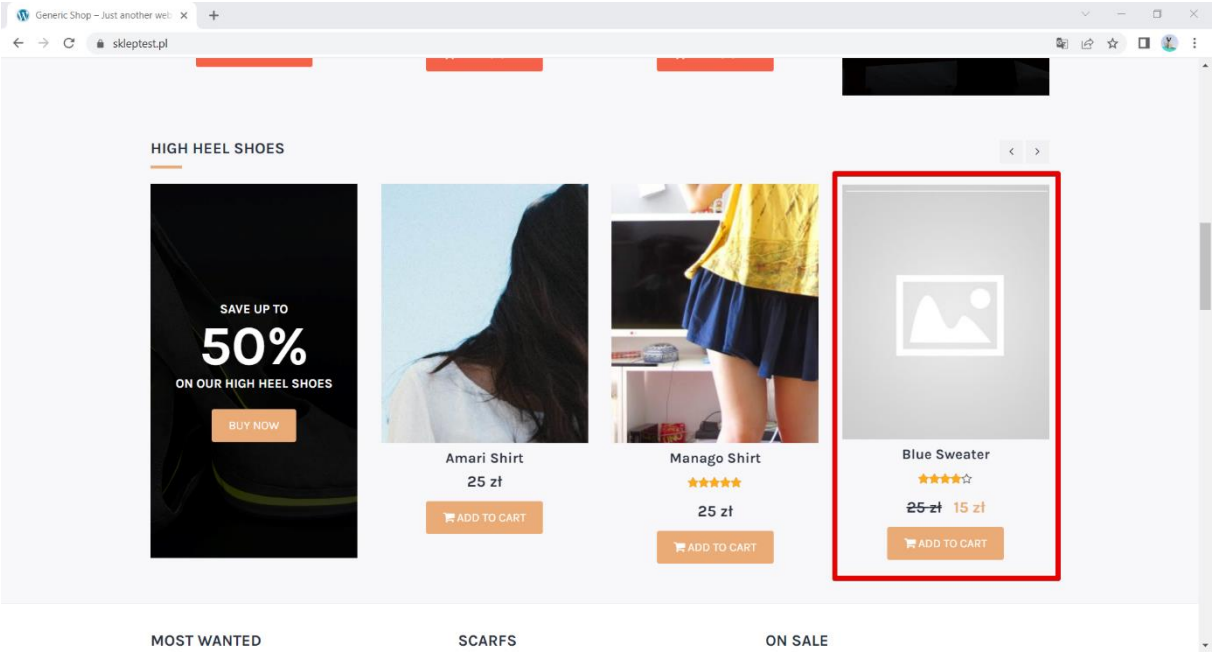
ST-15 - The "Buy now" button in the "High heel shoes" section redirects us to a page with a message about the lack of content



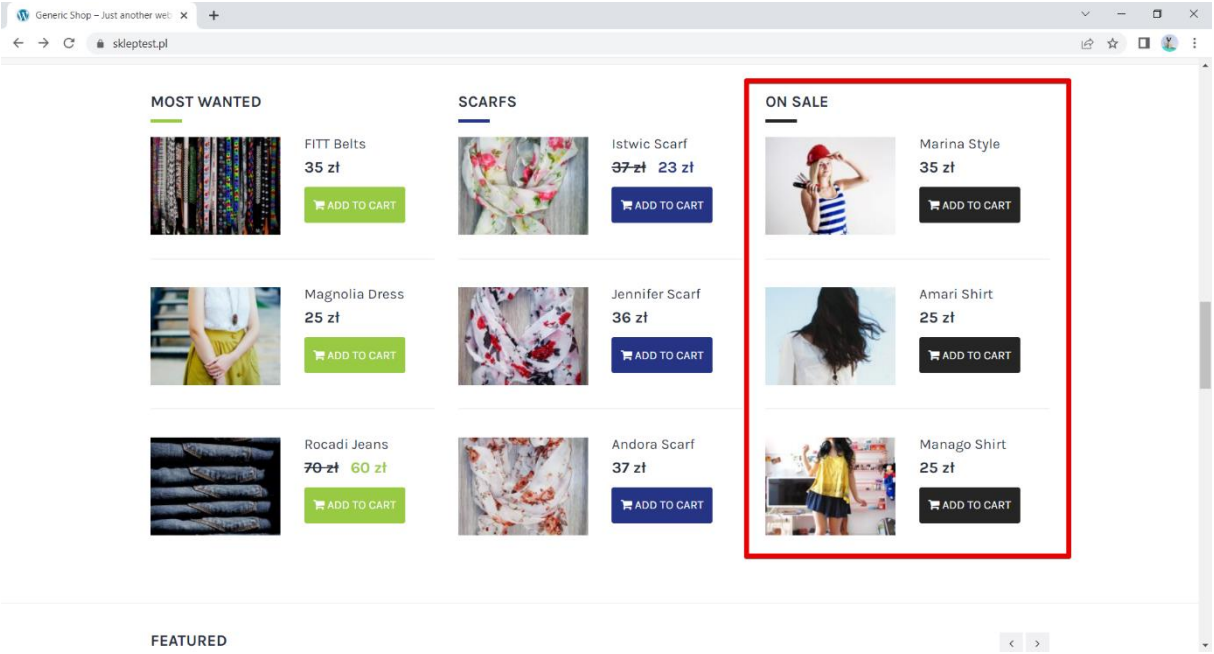
ST-16 - The "Amari Shirt" product does not have any star ratings, causing the text below the image to be positioned higher compared to the adjacent product



ST-17 - The product image for "Blue sweater" is not displayed, and the text below it is positioned higher compared to other products



ST-18 - The products in the "On sale" section do not appear to be marked as on sale



SUMMARY

In further tests, the following require additional attention:

- product category page
- product detail page
- product search functionality
- filters on other pages
- shopping cart
- user account
